DIRECTORY PUBLISHERS.

47 CONGRESS STREET, BOSTON.

THE DIRECTORY OFFICE,

No. 47 CONGRESS STREET, BOSTON.

ESTABLISHED IN 1846, BY GEORGE ADAMS.

Carried on from 1857 to 1865, by

ADAMS, SAMPSON, & CO.

Since 1865, continued by the same firm, under the style of

SAMPSON, DAVENPORT, & CO.

From this Office the

BOSTON DIRECTORY

has been issued annually for TWENTY-TWO YEARS.

THE PROVIDENCE (R. I.) DIRECTORY, NINE YEARS,

ALBANY (N. Y.) DIRECTORY, TWELVE YEARS,

TROY (N. Y.) DIRECTORY, ELEVEN YEARS.

Charlestown Directory, Roxbury Directory, Fall River Directory, Taunton Directory, Salem Directory, Lynn Directory, Lawrence Directory, Newburyport Directory, Lowell Directory, Manchester (N.H.) Directory, each biennially for from ten to twenty years.

THE NEW ENCLAND DIRECTORY

IN 1856, 1860, 1865, AND 1868,

THE NEW YORK STATE DIRECTORY

IN 1859, 1864, AND 1867.

THE MASSACHUSETTS REGISTER AND BUSINESS DIRECTORY SINCE 1852,

THE MAINE REGISTER AND BUSINESS DIRECTORY,

AND THE RHODE ISLAND REGISTER AND DIRECTORY.

Besides the publication of Directories, a great deal of public business of a similar character has been done through this office; some of it as follows:—

CENSUS OF BOSTON, 1850;

CENSUS OF BOSTON, MAY, 1855;

CENSUS OF BOSTON, JUNE, 1855;

CENSUS OF BOSTON & ROXBURY, 1865; CENSUS OF VOTERS IN BOSTON IN 1857.

STATISTICS OF INDUSTRY IN BOSTON 1850.

STATISTICS OF INDUSTRY IN BOSTON AND ROXBURY, 1865.

The city has been canvassed twice annually for nineteen years for the Record of Births. An annual Census of persons liable to enrolment in the State Militia has been taken some eighteen times, and a Census of School Children thirteen times.

S., D., & CO. can furnish, beside their own publications, nearly all other Directories published in the United States, and some from Foreign Countries.

PERMANENT RELIEF FOR THE FEET.

DR. BOND, SURGEON CHIROPODIST,

No 7 Hayward Place, from 346 Washington Street,

Treats successfully Corns, Bunions, Inflamed Joints, Ingrowing Nails, Chilblains, Callouses, &c.

The success of this Treatment has no parallel in the annuls of the profession. The most hopeless cases have been cared in a single week, that have builted the skill of the profession for forty years. This result is reached without Pain or Blood. It gives Immediate Relief, softens the hardest Callouses, annihilates the Corn, and restores the circulation.

I challenge any man in the profession to show an equal number of Permanent Curcs. My Rooms are easy of access, as there are no stairs to climb.

GOLD AND SILVER MEDALS HAVE BEEN AWARDED THIS ENGINE.

No water used. Requires no Engineer, no extra insurance. Cannot explode. Shop heated and running expenses, 25 cents per 10 hours, each horse power, and as portable as a stove.

MORRILL'S POWER PRINTING ESTABLISHMENT, 22 Water Street, Boston, May 27, 1867.

We have had a Roper Two Horse Engine in constant use for the past two years, heating our rooms and running nine presses with sixty pounds coal per ten hours. Since having a Tripp's Improved Regulator attached, it runs with a more even speed and with less noise. We pronounce it unrivalled and faultless for the purpose to which it is applied.

S. S. MORRILL.

LIFE INSURANCE COMPANY,

OF PROVIDENCE, R. I.

The Economical is the most liberal Insurance Company in the country. All Policies are non-forfeitable from the first payment. Its rates of premiums are from 10 to 25 per cent lower than most companies.

It pays no percentage to directors. Its management is economical, prudent, and candid. It is scrutinized by careful, experienced business men, who receive but 7 per cent interest on their capital invested.

No policy holder can be assessed for any loss or deficiency. In wholly mutual companies the policy-holders alone are responsible.

Its rapid and healthful growth is convincing proof of the confidence reposed by the public in its soundness, integrity and liberality.

For full particulars call at the Office of the Company, 2 Market Square, Providence.

PRIZE ENGAUSTIC TILES.

T. & R. BOOTE are awarded by the Jurors of both Classes 10 and 35 of the International Exhibition, a Prize Medal, for their

ENCAUSTIC AND TESSELATED TILING,

"For admirable treatment and good design," "For new process of Manufacture of Encaustic Tiles."

T. & R. Boote, by their patent process, are making Encaustic and Tesselated Flooring Tiles of the hardest texture and the finest colors, (equal to enamel tints,) thereby ensuring durability, and at a much cheaper rate than hitherto charged, which are so extensively used in Great Britain and Continental Europe, and are suitable for Churches, Entrance Halls, Billiard Rooms, &c., samples of which can be seen at the office of

EDWARD BOOTE, No. 20 City Wharf, Boston, Mass.

THE IMMENSE DEMAND

45 Kingston Street, Boston.

Shafting, Pulleys and Hangers, Hand Lathes, Chucks, Slide Rests, and Belting, on Hand and Manufactured to Order.

Nason's Patent Screw-Chasing Apparatus attached.

N. B. — The American Tool and Machine Co.
are the only authorized manufacturers and venders in the United States of the above patented apparatus.

The Lathe is particularly calculated for the manufacture of Steam and Gas Fittings. It is arranged to be used for turning, boring straight or taper holes, boring cocks, facing plain surfaces, and screw-chasing.

This section of Shaft, Coupling, and Hanger, here represented, requires no explanation; its advantages over the rigid Hanger will be at once seen and appreciated by any mechanic. It is every way calculated for economy, being fitted with a patent box which adjusts itself to the shaft, and we guarantee it to run Six Months without Re-Oiling, thereby saving labor, friction, oil and the disagreeable, and sometimes destructive, effects of the dripping of oil from above.

CODMAN & SHURTLEFF,

Nos. 13 & 15 Tremont St., Boston,

MANUFACTURERS AND IMPORTERS OF

Surgical and Dental Instrume:

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental professions, have always in store, at the lowest prices, a great variety of the following articles, suited to the wants of the general public:-

TRUSSES.

A large assortment of best patterns from which to select to meet the requirements of each case. If convenient, persons requiring Trusses should call at our establishment, where they can have a suitable truss carefully fitted by a competent and experienced person familiar with the Anatomy of Hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person two inches below the top of the hip-bone. If the rupture is at the navel, the measure should be around the body at the navel.

ELASTIC HOSE.

For Varicose Veins, Swollen Limbs, and Weak Joints. Of these goods we have several classes of Silk and Cotton, possessing different degrees of elasticity, the stout silk being usually the most satisfactory. The sizes are, full length (of leg), three-quarters, half, or knee hose, knee-caps, and anklets.

Also Spinal and Abdominal Supporters, Shoulder Braces, Suspensory Bandages, Apparatus for Weak Ankles, Boac-Leys, Club-Feet, &c. Also Crutches of various and most improved kinds; Syringes, Rubber Urinals, to wear on the person day or night, for Maes and Females; Galvanic Balteries, Hearing Transpets. Anvicles and Conversation Tubes for the deaf. Respirators, to prevent coughing on entering cold or warm air; together with many other articles for use of the sick and invalids.

Organized as the Exponent of the Non-Forfeiture Law of Massachusetts.

It was the first Company to proclaim the benefits of this Statute to the public; the first to make all its policies subject to this Statute, and which had "the honor of the first practical compliance with the Statute." All the Profits are divided among the Policy-holders. Dividends paid annually on the Contribution Plan, commencing one year from the date of the policy, and may be used as Cash in payment of premiums, or to purchase additions to policy.

purchase additions to policy.

All its Policies are Non Forfeitable after One Payment, or entitled to a Paid-up Policy.

By reference to the Report of the Insurance Commissioner of Massachusetts, it will be seen that this Company is not surpassed by any other in the United States, as to security to Policy-holders.

New Method for the Piano-Forte,

ORGAN, AND VOICE.

More of the theory and practice of Music can be acquired by this Method in THREE MONTHS than by any other Method in YEARS.

Pupils can, indeed, become independent performers, even of the most difficult music, after a practice of from THREE to SIX Months. The tollowing are

SOME OF ITS NUMBERLESS ADVANTAGES OVER THE OLD SYSTEM:

- 1. It saves time and money.
- It facilitates the reading of music.
 It gives the pupil perfect command of the KEY-BOARD.
- It enables the pupil to practice for hours, independent of notes
- 5. It so trains the hands that the right fingering is adopted without difficulty.
 6. It is so simple that all, even a child, can under-
- stand it.
- 7. It is so fascinating that all are delighted with the practice.
- It commences at the foundation, the principles of which can never be forgotten.
- It gives concise rules for each step. It is taught without Books.
- 10.
- 11. It affords good discipline for the minut.

 12. It commends itself at once to the educated class

Organized in 1846. Charter Perpetual.

THE LARGEST MUTUAL LIFE INSURANCE COMPANY.

NUMBERING 55,000 MEMBERS.

A Purely Mutual Company. Its Assets belong exclusively to its members.

Assets, \$25,000,000. Acquired by prudent and economical management of twenty-two years, without the aid of a single dollar of original capital.

Surplus Assets, \$6,361,967. All profits divided among the members. Each policy holder is a member. There are no stockholders.

Its Large Dividends. They have averaged over 50 per cent. annually. Total amount of dividends paid the members since its organization, \$4,397,142.

Its Success Unparalleled. It has arrived at the extraordinary condition where the income from Annual Interest alone is more than sufficient to pay all its losses.

Total amount of losses paid by the Company, \$6.868,528.

Its Responsibility. For every \$100 of Liabilities, it has \$154 of Assets.

LAST YEAR'S PROSPEROUS BUSINESS.

Amount insured fiscal year 1867, \$45,647,191.00

Income received " " " 7,530,886.19

During its last fiscal year this Company paid to its living members, and to the families of its deceased members, nearly \$2,000,000, and at the same time added more than Four Millions to its accumulated empired. capital.

Among the older and leading Life Insurance Companies, its average ratio of expenses to income has, through its entire history, been the lowest of any. Agents in all the principal towns in the United States.

PATENT VERTICAL

Our intentions are to place in the market the best Machine Drill in use. Having spent a long time in perfecting this Machine, we have no hesitation in saying that we have succeeded in bringing to perfection this important tool for Machinists' use. There are five different motions to the drilling table, viz.:

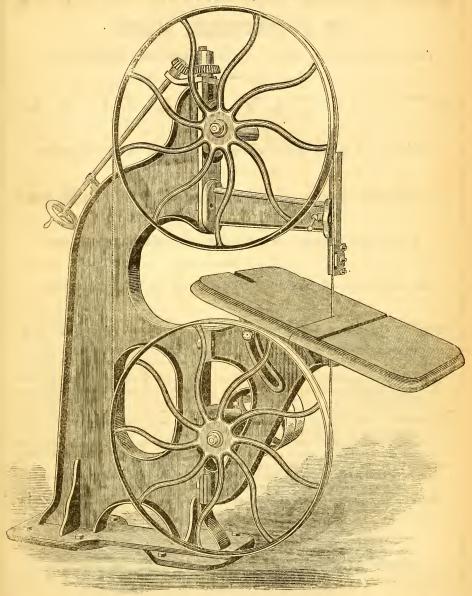

Turning on its own centre in a horizontal position. Sliding backwards and forwards; swinging around the post, out of the way, while using the Platform

Raising and lowering on the post, with rack and pinion; and turning sideways for angular drilling. We warrant every Machine built and sold by us strictly First Class, of good Material and Workmanship.

BAND SAWING MACHINES, Patent Saw Benches, Planing Machines,

Moulding Machines, Clapboard Planers, Wood Lathes &c.,

AN EXAMINATION OF OUR MACHINES SOLICITED.

THE

Berkshire Vise Insurance Company,

OF PITTSFIELD, MASS.

INCORPORATED 1851. CHARTER PERPETUAL.

STRICTLY MUTUAL.

Annual and Increasing Cash Dividends.

All desirable Forms of Policies issued at favorable rates.

EACH POLICY HOLDER RECEIVES EVERY DAY'S INSURANCE PAID FOR.

No forfeiture of Policies from failure to pay Premiums.

EXAMPLE. - On a Life Policy, Annual Payments, at the age of 35.

ONE PAYMENT CONTINUES THE POLICY IN FORCE TWO YEARS, THREE DAYS.
TWO PAYMENTS CONTINUE THE POLICY IN FORCE FOUR YEARS, TWELVE DAYS.

That is, should the assured pay one premium, and fail to pay the second, he would still remain insured for the full amount of the Policy one year and three days longer; if TWO payments were made, he would remain insured two years and twelve days after the third premium became due. This feature, first adopted by this Company, is absolutely secured to the assured by the Laws of Massachusetts. IN ADDITION to this, on all limited payment Life and Endowment Policies, the assured has the option of a paid up Policy after one Payment.

Charles M. Ellsbree insured in the Berkshire for \$1,000, paid one premium, and failed to pay the second. Several weeks afterward he died. The full amount of the policy, less the second premium due and unpaid, was paid to his widow, Mrs. Mary J. Ellsbree, at East Hartland, Connecticut.

James Joyce, insured for \$1,000, failed to pay his second year's premium, and died four months afterward. The full amount was paid his widow, Mrs. Maria Joyce, 262 Spring Street, New York.

Maximilian Meckel, insured for \$1,000, failed to pay his second premium when due, being in bad health, and out of employment, with a large family dependent on him. Nine Months afterward he died. The Company paid the amount of his policy to his widow, Mrs. Maria Meckel, Cleveland, Ohio.

HALE'S PATENT

CARRIAGE WASHER,

THE GREATEST INVENTION OF THE AGE

This washer, manufactured more especially for carriages, is made of wood, so constructed that when properly applied to an axletree prevents all rattling of the wheels.

It will outwear two sets of leather washers, and does not collect the black grease which a leather washer does; holds oil better, and a fair trial of it will convince any one that it is very superior and far more preferable than any other ever offered to the public.

All orders addressed to HALE PATENT WASHER CO., New Bedford, Mass., will be promptly attended to.

DR. A. M. HIGGINS'S

NTALGICA

THIS CELEBRATED MEDICINE has become a HOUSEHOLD FRIEND in every family where its merits are known. For years it has been extensively used in all the NEW ENGLAND STATES and the ARMY.

No "Puff" can add to its Merits: it is UNRIVALLED!

For DIPHTHERIA, no specific can compete withit; for CHOLERA, DYSENTERY, KIDNEY COMPLAINTS, &c., and as a GENERAL PAIN RELIEVER or KILLER, it is universal in its actions,

AS THOUSANDS CAN ATTEST!

Circulars of the above and of all the other kinds of Dr. Higgins's Medicines sent on application. Orders solicited and promptly tilled by the Proprietors.

SOMETHING NEW.

Ketchum's Patent Mincing Knife,

Manufactured by KETCHUM & LOUD, Winchendon, Mass.

We offer this knife to the public, having the number confidence that it is superior to any other knife made in this country. We claim that it is the only knife that takes on the drawing stroke by its own action, and also that it will cut raw or boiled meat equally well. All we ask of any who doubt, is to try it. We ask no one to buy unless our claim proves good.

It should be used in a tray or bowl of sufficient size to allow the blades to spread when the knife is forced down upon its bottom. Care should be at taken to oil the joints and pius which the springs play upon.

All orders addressed to the manufacturers will receive their personal attention. By Agents wanted in every Town in the Country. Also Town and County rights for sale.

The thumb-screw passing through the shank will give more or less force as the nut is turned off or on giving it the power to cut the toughest raw meat, or the softest vegetables. Both blades should be sharpened with a fine Stone or Hone before using. The knife, after cleaning, should be hung up by the hole in the centre of the blades when poen.

By the hole in the centre of the blades when poen.

This kny hard meat, the nut should be turned on until the springs are brought down upon the pin in the shank.

This knife was awarded a Diploma at the New England State Fairat New Haven, Ct., Sept. 1. Also at the Vt. State Fair at Burlington, Sept. 8, 1988. Also at the New Hampshres State Fair held at Romannes State Fair Held at Perland, Oct. 6, 1988.

DENNIS HUBBARD.

The Springfield Gas Machine Company

The best Patent Gas Machine

Known, for Lighting Dwellings, Factories, Mills, Churches, Halls, &c.

Our Machines have been in use for a long period; through the coldest of winters, and under all circumstances, with from 10 to 1000 burners, and with entire safety and success. Our aim has been to produce the best Machine in the market for furnishing gas light where ordinary coal gas was not accessible. And this, the rapid sale and successful working of our Machines shows that we have accomplished. All we now ask is to have them examined and tried upon their own merits. We have hitherto advertised but little, and made comparatively small effort to publish or introduce them; and yet they to-day stand at the head of all Gas Machines in the country. And firm in this confidence, we now invite the public attention, and advise all not to purchase or set up a Machine until they have seen ours.

KNOWLES'S

PATENT STEAM PUMP.

Patented in England and France.

THIS PUMP has received the HIGHEST PREMIUM at every F ir where it has been exhibited; viz., New York, Boston, Baltimore, Cincinnati, Buffalo, Syracuse, Springfield, and Worcester.

It has no Cranks or Fly-wheel, and has no dead points where it will stop, consequently it is always ready to start without using a starting-bar, and does not require hand work to get it past the centre; and is the only Pump made that will work its steam-valve with water, consequently is always ready to start when the steam-cylinder is filled with cold water of cond usation.

It has been used for more than eight years for feeding STATIONARY STEAM BOILERS; and has been used more than five years on LOCOMOTIVES, and is the only Steam Pump yet tried that is in every way adapted for that use. It has been extensively used for pumping water for Hotels, public Institutions, Mining Purposes, and Manufacturing

Establishments of every kind with perfect success. It has been tested in the Navy; and in consequence is recommended by the Chief Engineer of the United States Navy, to be used at the Navy Yards and on Steamers. As a Fire Engine, it is recommended by all Insurance Companies, and is universally adopted by the manufacturing companies in New England.

Although we have been constantly making additions to our Works, yet the rapidly increasing demand for our Pumps has hitherto been greater than our possible production; but, with recent enlargement of our Works, and extensive additions to our mainfacturing facilities, we hope to be able to supply all orders.

The Proprietors offer this Pump as the most Perfect Independent Steam Pump ever invented, and for simplicity and Durability, it defi-s Competition.

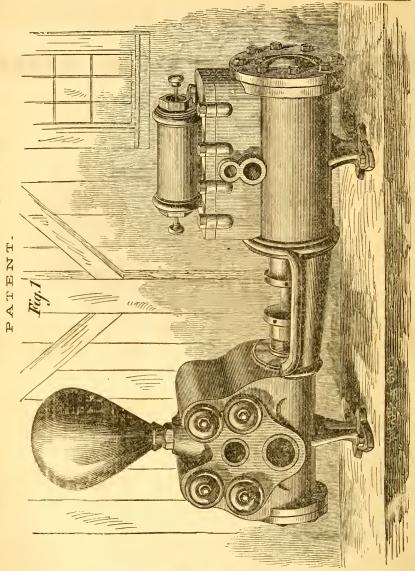

For further information, address the Proprietors at their Works.

AND PARTICULARLY TO THEIR

IMPROVED MAIL OIL CUP AXLE.

Which keeps the Axle at all times in the finest running condition with the smallest amount of trouble, simply putting the oil in the cup once a week (pure Sperm or Hendricks' Lubricator), removing the wheel from the axle only when the leather washers require to be renewed, about once a year,

We take pleasure in being able to present for consideration the following letters and testimonials, in regard to the merits of our Axles. With a practical experience of twenty years in the Axle business, and a close personal application, with the best possible facilities, we guarantee full satisfaction to all purchasers, or the goods may be returned at our expense.

RECOMMENDATIONS:

After several years' use of the different styles of Axles manufactured by David Dalzell, we cheerfully recommend them as worthy the confidence of the best class carriage builders.

Messrs, D. Dalzell & Sons:—Gentlemen: Yours of the 1st came to hand this morning, asking to have the recommendations given you some years since renewed. In answer would say, that we have not the least objection to having you use the same certificate again, as we entertain the same favorable opinion of your Axles as we did then, and hope it may influence some carriage makers to use your Axles who have not already done so. We thank you for kind wishes for the new year, and hope you may see many happy returns of the same. We are yours, with much respect.

JOHN R. LAWRENCE & CO.

PHILADELPHIA, Nov. 5, 1863.

After an experience of fifteen years in the use of Mr. David Dalzell's Axles, we take great pleasure in recommending them to all builders of first-class work. For the past two years we have been using largely of his Steel Axles, which have proved very satisfactory of his deal and such that the state of them to be a such that the state of

David Dalzell. Esq., South Egremont:
Dear Sir. I l gives me pleasure to state that after using your make of Axles for many years, I can recommend them to the trade as being well adapted to fine work, made in a superior manner, of suitable stock, giving no trouble to the eucomer. Yours truly, WM. D. RUGERS.

We have been using the "Bessemer Steel" Axles, made by David Dalzell, and find them very superior, and can recommend them to all carriage makers requiring a first-class article. We find the "Bessemer Steel" very stiff and tough, and post-titled use no other for our Axles. Mr. Dalzell was the first, we believe, to bring this steel into notice for Axles.

I have used to considerable extent, for some years, David Dalzell & Sons' make of Axles, both iron and steel, and they have given general satisfaction. They are good makers, and fair men to deal with.

Carriage Manufacturer, Nos. 144 to 152 East 31st St.

New Have been familiar with Dalzell's Axles for several years, and used a good many of them, always with satisfaction to ourselves and our customers. About eighteen months since, we began using, as an experiment, some of his "Bessemer Steel Axles," with results so satisfactory that we became satisfied that they were decidedly the best and safest Axle in use, and for twelve months past we have used them exclusively on all for the property of the same and th

We have used Dalzell's Axles for the past year, both irou and steel, and consider them the best Axle made, and give the best satisfaction to ourselves and customers of any Axle we have used in thirty years' experience, and most cheeffully recommend them for all good class of work.

J. M. KIMBALL & CO.

I take pleasure in saying to all carriage makers, and others interested, that I have used the past year a large number of the Bessemer Steel Axles, made by Messrs. David Dalzell & Sons, including the Oil Cup and other kinds, and have found them the best Axle in cvery respect, I have ever used, giving me no trouble, but giving my customers the greatest satisfaction in every case. The price charged for them by Messrs. Dalzell & Sons is so low in comparison to their good qualities, that it would seem their merit was only to be known to be adopted by all first-class carriage builders.

Manufactu: ers of Starrett's Great Labor- aving

"Meat and Vegetable Choppers."

These Choppers are the delight of every one who has use for a "Chopping-Tray," from the fact, that instead of the slow, tiresome process of chopping with the hand-knife, these Machines will, with half the strength, chop meat or apples sufficient for ten pies in three minutes, as fine as desired.

Four sizes are made, suitable for families, boarding-houses, hotels, butchers and bakers.

PRICES.

Hardy's Lining Metal,

For boxes and bearings of all descriptions, which after years of observation and study to produce a metal having the strength of a composition box, and the lubricating qualities of Babbitt, is fully demonstrated by trial, and warranted superior to all other metals for lining purposes. It is of a hard tough nature close grained, giving strength to the box, will not break or roll on the journal, being entirely free from any harsh gritty particles usually found in lining metals which are hard enough for durability, melting at a higher degree of temperature it is less liable to melt out by friction, making a superior box for railroad car journals. Journal Boxes lined with this metal, placed under cars, have out-worn three sets of boxes lined with the best Babbitt Metal, showing by measurement one thirty-second of an inch wear per year, the journals being in a perfect state.

With the best of Testimonials for this Metal we challenge competition. For the qualities of our work we refer, by permission, to

NORTH-WESTERN

Mutual Life Insurance Company.

Central Office, 416 Main Street, - - Milwaukee, Wis.

ASSETS, \$5,000,000.

MEMBERSHIP, \$40,000.

POLICIES ISSUED IN 1868, 11,719.

Risks covered by Policies issued in 1868, - - \$24,326,400.

While it will not be denied that money can be as safely invested at the West, where property is rapidly enhancing in value, it is claimed that as honest, capable, and efficient managers can be found there as elsewhere. But there are positive and weighty reasons, prompting to the patronage of the "North-western Mutual."

First. The rapid accumulation at the West. This money is kept at the West, where it is in greater demand, and where it will secure higher interest and more constant investment, with equally good security,—for people can afford to pay more for it than in older States. The advantages of such investment to the Company appear in the following startling figures.

ONE THOUSAND DOLLARS LOANED FOR FIFTY YEARS.

 At 6 per cent. compound interest produce
 \$18,420.15

 At 8 per cent. compound interest produce
 46,901.61

 At 10 per cent. compound interest produce
 117,390.85

Second. All its profits are equitably divided among its Policy-holders.

Third. It combines the advantages of both the Note and Cash systems, making the payment of Premiums easy and equitable, by loaning to the small insurer, as well as the larger, just so much of the Premium as is secured by the "value of the Policy" itself, and no more,—thus really confining its business to the cash plan.

Fourth. A member who has paid his Premium in cash for a number of years, may, if circumstances require it, pay subsequent Premiums wholly in Notes, until the amount of the Notes equals the "value of the Policy;" or may at any time borrow of the Company the "surrender value of his Policy,"—and thus frequently help himself over some temporary difficulty.

Fifth. The first payment secures its proportionate share of a ten-year Policy.

Sixth. Its Dividends are made annually, commencing three years from the date of the Policy, and upon the contribution plan, either in cash or upon the most approved methods.

Seventh. Reversionary insurance, purchased by the dividends, and once issued, is not forfeited by non-payment of Premiums on the Policy.

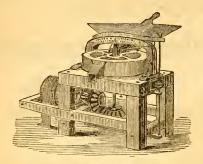

Eighth. All its Policies are Non-Forfeiting.

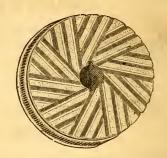

Ninth. In short, this Company aims not to take advantage of its members, or of their misfortunes, but to conduct its business upon the basis of the strictest equity, and an enlarged liberality.

The same WEITELE.

MACHINISTS, AND MANUFACTURERS OF

Portable Engine, Locomotive Boiler. From 8 to 40 Horse Power.

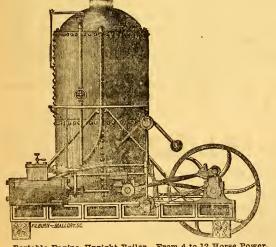

Marine, Stationary, Portable, Pile-Driving and Hoisting STEAM ENGINES.

We would call the attention of the public to our IMPROVED PORTABLE STEAM ENGINE, in which all the working parts of the Eugine are built on an irou frame (like a common Stationary Engine), thus avoiding the heat from the boiler to the working parts of the Engine, and the strain on the machinery caused by the expansion of the boiler; making both Engine and Boiler more durable than the usual style of Portable Engines.

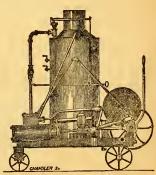

These Engines are designed for all purposes where Stationary Engines could be used, and for loading and unloading vessels, Pile-Driving, small Steamboats, and Mining purposes.

They do not require any brick-work, and are ready for operation on delivery. The Boilers are warranted

to carry 100 lbs. per inch.

Pile-Driving Engine.

We use a Patent Regulator-Valve movement on our Stationary Engines, which, for economy and perfect

regulating, is not surpassed.
Having erected a new and commodious Shop, we are prepared to make SHAFTING, PULLEYS, SAWMILL, MINING AND PUMPING MACHINERY, and all kinds of MILL-WORK, with dispatch.
PORTABLE ENGINES constantly on hand. Altering and Repairing done at short notice.

WATCHMAN'S TIME DETECTOR.

This WATCH-CLOCK was introduced to the public in almost every section of the United States and Canadus, several years ago; and it has proved itself to be the best invention in the world for testing the faithfulness of Watchmen. Since its introduction, the Proprietor has improved on some parts, and corrected deficiencies which have been suggested by using it; and he has now a perfect check upon the Watchman. With other clocks, a regular routine has to be followed, but with this a Watchman can be ordered to visit any particular place as often as required, without being compelled to go to places where it is not necessary to visit as often.

The instrument is complete in itself, portable, and as reliable as the best lever watch.

It is not so likely to become disarranged in its works as a good watch, because its parts are stronger. But when it needs cleaning, any common watchmaker can adjust it, its mechanism being simple.

It requires no fixtures or wires communicating from room to room, as is the case with the ordinary Watch-Clocks; a small, inexpensive, stationary key is alone required at each station.

Its use is not restricted to a single building, and places can be guarded that it would be impossible to guard with any other instrument, such as Railroad Tunnels, Bridges, Yards, Shops, &c.

It is very essential to carry the clock secure, taking care that it is not brought in contact with any hard substance, and thereby broken. I have on hand pouches with straps to go over the shoulder and around the body, which I will send with the clock, it ordered. Price, \$2.50.

The instrument will in all cases be warranted perfect and satisfactory.

Its price is invariably Seventy-Five Dollars, Cash on Delivery, including as many Keys as are requisite, not exceeding twelve.

THIS WATCH-CLOCK IS SOLD AT A LESS PRICE THAN ANY OTHER IN THE MARKET.

The DETECTOR is used extensively by large Manufacturing Establishments and Railroad Companies in the Uni ed States, from whom numerous testimonials have been received.

N.B. Parties purchasing these Clocks should test them sufficiently in the counting room or office, as they will not be taken back after having been injured by the Watchman through carelessness.

Rep This Detector is covered by two U. S. Patents. Parties using or selling these instruments without authority from me will be dealt with according to law.

All communications promptly attended to.

PIPE. S-1 - 1 0-1 0-1 L 1 1 5 de la company de la comp

For various purposes, by a new Patented process, are now ready to supply, in large or small quantities, at the lowest rates, a superior article of

SPEAKING TUBE.

Our pipe is made in smooth seven-foot lengths, without soldered joints, and we furnish improved couplings for joining and ficilitating the running of the same. We are prepared to make it still more desirable and useful, by furnishing an entirely new form of Annunciator, recently invented and adapted expressly to Speaking Tubes, whereby all the rooms of even the largest hotels and manufactories may be brought into easy speaking communication with the Office. By this unique arrangement, one person is enabled to receive and answer communications from all parts of a First Class Hotel, and direct the proper attention to the wants of guests, with nearly as much ense and facility as though such attendant stood face to face with the occupants in their respective upartments.

It will save more than its cost every year in the reduction of attendants, and by its directness and promptness be more satisfactory to all concerned. When once furnished it is as permanent as the house itself, and not constantly getting out of repair, as the Bell-Wire Annunciator is, from the violent and impatient putling of the vires; consequently both expensive attendance and repairs are saved. We shall soon be prepared to furnish a FIRNT CLASS pipe for Conductors, from the eaves-trough to the ground, and for other purposes, manufactured by the same process.

Parties using or furnishing such pipe or tubing, will find it to their advantage to call on us before manufactured, or purchasing elsewhere, as we shall be prepared to fill orders for any amount with the best article, for the lowest prices.

Machines will be repaired in the factory. One of the best mechanics will be constantly in attendance to repair machines outside. I shall be happy to sell to the public any of these machines, and give them pertect satisfaction, as the Union Button-Hole Machine has proved a perfect success to manufacturers, which can be seen in most all the large manufactories for Clothing, Boots and Shoes. The Family Machine is very simple, giving the opportunity to do common sewing of the best; and at the will of the operator can be changed in half a minute to any kind of Button-Hole, &c. This Machine will endoubt diy excel all before it.

THE ROYAL INSURANCE CO.

Continues to insure against the hazards of Fire, and is well known as one of the soundest and most reliable companies in existence. Security is, or should be, the first object sought by the insured; in this respect the ROYAL is unsurpassed. The amount of its Capital, viz: TEN MILLION DOLLARS—which would be immediately available to meet any unforeseen calamity, together with the high standing of its Directors and Proprietors, render it one of the most eligible Offices in existence, either in America or Europe.

Promptitude and fair dealing in settlement of claims is the invariable rule with the ROYAL INSURANCE COMPANY. It has paid losses in all parts of the world, including some of enormous magnitude, as, for instance, the loss to this Company by the Great Fire of London, in June, 1861, amounted to nearly \$400,000, which was promptly paid, without encroaching upon the Capital of the Company.

THE AGENTS OF THE OFFICE EVERYWHERE HAVE AUTHORITY TO SETTLE CLAIMS WITHOUT REFERENCE ELSEWHERE.
